A macro photograph of a perforated metal surface, likely a speaker grille. The surface is covered in a regular grid of small, oval-shaped holes. The lighting creates a strong color gradient across the image, transitioning from a warm orange on the left to a cool blue on the right. The perspective is slightly curved, suggesting the surface is part of a cylinder or a large sphere. The overall texture is highly detailed due to the close-up nature of the shot.

Commended - Doug Jackson (Set Subj B Grade)
